# TRAFFIC INFORMATION

## The 2018 Trident Juncture NATO exercise

The NATO exercise Trident Juncture is being held in Norway in the autumn of 2018. In the time from **October to December** there will be **extensive military traffic** on sections of the main road network in eastern and central Norway.

**Expect delays and take extra driving time into account!**

### Use the E6 instead of National Road 3

From 22 October and until 15 November there will be extensive military transport and exercise activity along National Road 3 between Elverum and Ulsberg. Delays must be expected.

The Norwegian Public Roads Administration recommends using the E6 between Oslo and Trondheim in this period.

### These main road sections will be particularly affected:

- E6 Fredrikstad–Kolomoen
- National road 3 Kolomoen–Ulsberg
- E6 Dombås–Skogn
- E136 Åndalsnes–Dombås

**Look out for military traffic. Show consideration if you encounter a military convoy. Take extra time into account.**
