Increase in toll rates from 2019

According to the Ministry of Innovation and Technology starting from 2019 the toll rates will increase with approximately 5.8 % in average, compared with the actual prices. The Ministry also emphasized that the categories of Euro 3 and Euro 4 vehicles, which pollute the environment more, will no longer be treated in a privileged way. The revision of the fees concerning the emission rates is still under discussion. The final prices will be published around the end of the year.

Vignette system (tariffs from 1.01.12; including 20% VAT)

Vehicle categories and tariffs are as follows -

Category D1: vehicles or combinations up to 3.5t MPW - these vehicles have to pay road use charge on motorways.

Category D2: vehicles or combinations over 3.5t to 7.5t MPW - these vehicles have to pay a road use charge on motorways, trunk roads and certain main roads.

Category D3: vehicles or combinations over 7.5t to 12t MPW - these vehicles have to pay a road use charge on motorways, trunk roads and certain main roads.

Category D4: vehicles or combinations of over 12t MPW - these vehicles have to pay a road use charge on motorways, trunk roads and certain main roads.

The MPW taken into consideration is based on the value indicated in the registration document.

| | 1 day | Week (10 days) | 1 month* | 1 year |

* This vignette is valid from the day indicated as the first day until 24h00 on the same day of the following month. If this date does not exist (e.g. for a vignette purchased on 29, 30 or 31 January), the vignette is valid until 24h00 on the last day of the following month.

E-vignette

Since 1 January 2008, windshield vignettes have been replaced by e-vignettes meaning that when purchasing an authorisation to use the road, the customer is only provided with a receipt. Vignettes may be purchased at petrol stations, customer service offices, by internet or via a mobile phone. After the transaction, the customer receives a receipt and a confirmation message which have to be kept for one year from the last day of the validity period. Customers are advised to carefully check their data (licence plate number, toll category and starting date) before signing the receipt or sending a reply message if purchasing via mobile phone. For further information, please see:

www.autopalyamatrica.hu and www.izishop.hu

If a vehicle is found to be travelling without a receipt, the driver must buy a vignette for the shortest period available for his category of vehicle and pay a fine, as follows:

(fine in HUF)

| If paid | D1 | D2 | D3 | D4 |
|----------------|--------|---------|---------|---------|
| within 30 days | 14 875 | 41 275 | 63 000 | 79 375 |
| after 30 days | 59 500 | 165 100 | 252 000 | 317 500 |

The Hungarian Government has advised that the new electronic toll system in Hungary will start on **1 July 2013**.
