IRU Academy CPC Driver Programme ME

The Certificate of Professional Competence for Driver (CPC Driver) is a new qualification for truck drivers specifically designed to cover the needs of the League of Arab States countries. The CPC Driver aims to improve road safety by helping drivers of trucks maintain and develop the skills and knowledge they need. It focuses on themes such as Road Safety, Professionalism, Rational Driving and Compliance and addresses topics such as knowing how to load and secure a vehicle safely, and how to drive economically.

CPC ME Driver Training

➢ The CPC certifying qualification is awarded on the basis of course attendance and test or on the basis of theoretical and practical tests.

➢ Training centers should be recognised by their national competent authorities and the courses should cover all subjects listed in the IRU Academy Lesson Plan

➢ The IRU Academy Lesson Plan on CPC Driver Training provides a frame for the establishment of a CPC Qualification Training Programme.

➢ National authorities or other recognised entities shall supervise the tests and, upon successful completion, issue the drivers with the IRU Academy CPC Driver Certificate testifying successful achievement.
