# IRU Academy Tachograph
# Train-the-Trainer Course Outline

**Duration**

This course will take place over 2 days.

**Summary**

This course will provide instructors all necessary background information and training resources in order to teach this Tachograph programme following the IRU Academy standards.

This includes Driving and Rest Time Rules Compliance information as well as details on the functioning of the Analogue and Digital Tachographs. Thereto they will learn to work with the online course and refer to the EC and AETR regulations. This course also aims to provide the necessary skills in order to use a digital Tachograph simulator and create related exercises with it.

**Target Audience**

This course is intended to people that will be delivering Tachograph & Drive and Rest Time rule training.

**Objectives**

At the end of the course, participants should be able to:

- Use the online course as a form of instruction
- Identify and use the best teaching methods
- Refer to the EC or AETR regulations on driving and rest times
- Use an analogue and a digital tachograph according to the regulations
- Explain the consequences of committing a violation of these regulations
- Demonstrate the use of a digital tachograph simulator
