

## **IRU Academy Safe Loading and Cargo Securing Train-the-Trainer Course Outline**

### **Duration**

This course will take place over 2 days.

### **Summary**

The IRU Academy Safe Loading and Cargo Securing Train the Trainer is an interactive classroom training session that will equip instructors with the knowledge and skills to deliver high quality training to transport operators, drivers, loaders and all road transport professionals involved in loading and securing cargo. The training includes an overview of most up-to-date legislation relevant to the subject including the recent revision of the CEN standard EN12195-1 as well as theory and practice on cargo loading and securing. During this course, information, references and resources will be presented and reviewed, and instructors will be able to get highly exposed in the use of the IRU Academy Safe Loading and Cargo Securing Programme.

This training consists of:

- Full coverage of the IRU Academy Safe Loading and Cargo Securing Programme;
- An inside look at the latest developments in relevant legislation;
- A careful review of the IRU Academy Safe Loading and Cargo Securing Interactive Programme with a detailed analysis of every section under review;
- Successful Safe Loading and Cargo Securing training teaching methods;
- Practical sessions in the use of cargo loading and securing simulations;
- An overview of the IRU Academy and its road transport professional training programmes (for new ATIs).

This training is supported by interactive sessions and modern learning materials. Instructors will be able to test their skills using the IRU Academy Safe Loading and Cargo Securing simulator and try out a wide range of situations to ultimately hone their instructor's technical skills in a cost efficient and safe environment way.

### **Target Audience**

This briefing is designed specifically for instructors of the IRU Academy Safe Loading and Cargo Securing Programme of IRU Academy Accredited Training Institute (ATI). Independent Instructors already familiar with Safe Loading and Cargo Securing are also welcome.

## Course Outline

### Objectives

At the end of the training, participants should be able to:

- Harmonise their Safe Loading & Cargo Securing programme to the IRU Academy standards;
- Access effectively the IRU Academy resources on the Academy Content Management System (ACM);
- Sharpen their teaching experience and Safe Loading and Cargo Securing subject knowledge expertise, notably by including the latest developments in the field;
- Successfully undertake the IRU Academy Safe Loading & Cargo Securing Instructor's Test;
- Deliver high level quality training according to the strict guidelines imposed by the IRU Academy;
- Maximise learning transfer by using professional training techniques.

### Programme

<b>Day 1</b>	<ul style="list-style-type: none"><li>• Briefing Opening and IRU Academy Context</li><li>• Introduction to Recent Developments in Safe Cargo Transport</li><li>• Safe Loading and Cargo Securing Legislation</li><li>• Safe Loading Requirements</li><li>• Risks and Responsibilities</li><li>• Laws of Physics</li><li>• Vehicle Characteristics</li></ul>
<b>Day 2</b>	<ul style="list-style-type: none"><li>• Categories of Goods Transported</li><li>• Securing Material</li><li>• Securing Techniques</li><li>• Simulations</li><li>• Recap Exercise</li><li>• Instructor Resources</li><li>• Closing</li></ul>

### Pre-work/Pre-requisites

Before attending this training, participants:

- Should have good subject knowledge expertise (be able to explain/train course topics)
- Must have at least 6 months of teaching experience limited to the road transport industry or in Safe Loading and Cargo Securing related topics.

### Special Notes

For further information concerning the training, please contact [academy@iru.org](mailto:academy@iru.org).

Participation fees: [http://www.iru.org/en\\_academy\\_acc\\_start\\_accreditation](http://www.iru.org/en_academy_acc_start_accreditation)

### ***Regional briefings can be organised upon demand.***

The number of participants in the training is strictly limited due to the action-oriented and interactive approach.
