

Road Transport Professional Training at International Standards to ensure a sustainable development of the industry, economies and societies

Doha, October 24 2013

Patrick Philipp

Head – IRU Training

Agenda

- Transport & Growth
- The IRU & the IRU Academy
- Road Transport Professional Training Capacity at International Standards

Transport & Growth

Transport is a key factor contributing to economic development and poverty reduction. By reducing time and costs, and improving accessibility, transport enables economic activities, health care, education, and social development to be undertaken more effectively and efficiently.

Road Transport – A vital production tool

Road Transport is the vital link between producers, businesses and consumers. Every impediment on the development of road transport affects not solely the road transport industry but mostly the economies and societies as a whole.

Road Transport Facilitation

The objective towards achieving regional integration in terms of land transport development which consequently will be a major tool in responding to globalisation, should be reinforced by integrating international agreements that highly contribute to facilitate and secure, safe and efficient trade.

Status of 57 UN Conventions in the LAS Region

Managing Change!

The road transport industry is undergoing fundamental changes and operators are facing new challenges of strategic and structural nature. Combined with ambitious objectives to improve road safety, it is paramount that knowledge, skills and attitudes are developed to respond to and embrace change.

This is the International **Road Transport Union**

Evolution of IRU Membership

IRU Secretariat General

1973 – IRU Permanent Delegation to the European Union in Brussels

1998 – IRU Permanent Delegation to Eurasia in Moscow

2005 – IRU Permanent Delegation to the Middle East and Region in Istanbul

2013 – IRU Permanent Delegation to the United Nations in New-York

IRU Mission and Activities

Mission: to uphold the interests of bus, coach, taxi and truck operators to ensure economic growth and prosperity via the sustainable mobility of people and goods by road worldwide.

The IRU is involved in activities which include but are not limited to:

strategic reflection on global, road transport related challenges;

dialogue, cooperation and public-private partnerships with intergovernmental bodies, international organisations, policy makers, legislators, opinion-makers and relevant authorities

promotion of the role and importance of the road transport industry, of its position on various issues and of reliable data and information;

provision of practical services and information, to road transport operators;

training to promote professional competence, improve the quality of services and ensure compliance of road transport training standards with international legislation, through the IRU Academy.

Why Organisations Invest in Training?

Why Organisations Invest in Learning?

IRU Academy Objectives

Compliance

Not complying with the rules will lead to fines and possibly a negative impact on your reputation!

Resulting in loss of Revenues

Performance

Key Benefits:

- Improve safety record -Identify and manage "risk" for the employee
- Improve regulatory compliance
- Improve efficiency
- Increase employee and customer satisfaction
- Increase competitiveness

Safety

Damages to:

The Population

The Economy

The Environment

Road traffic deaths per 100'000 population

Countries

IRU Commitment Road Safety – Highest Priority

The IRU supports all measures that improve road safety

if

they effectively target the main causes of accidents involving trucks.

Main Cause: The Human Factor

Investigation of 624 accidents showed the main cause of the accident is human error

However, from the 85.2% linked to human error, 75% were caused by other road users!

IRU Commitment Road Safety – Highest Priority

Multilingual checklists and best practices

The IRU Academy is pleased to announce that the Karwa Transportation Training & Development Centre (KTTDC) successfully delivered a 4-day CPC Driver Training Programme to student drivers. With this training programme, the first of its kind in Qatar, KTTDC is further developing its training capability after having successfully implemented the ADR training programme.

e necessary tools to deliver high fits road safety, transport efficiency

The CPC Driver Training Programme focuses on key aspects that contribute to increased road safety such as defensive driving and safe loading and securing. It also teaches best practices in eco-driving, which reduces CO2 emissions and increases fuel efficiency.
