

Taxi - vision for the future

7th IRU International Taxi Forum - "Taxi - Anytime, Anywhere **4.0**"

Stanislav SHVAGERUS, independent expert, Russia

Cologne, Germany. 5 November, 2016

Technological Revolution

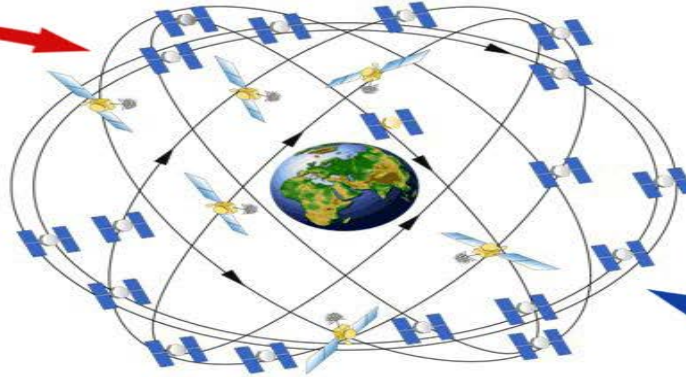

Factors of Development

Technologies for hailing a taxi

**Спутники
ГЛОНАСС**

**Спутники
GPS**

**INDOR - Navigation
Local systems for
hailing a taxi**

Integration of IT- systems

**Information about
each taxi ride.
Control over financial
trasactions.**

Decentralised IT - systems

Autonomous taxi ?

???

Philosophy

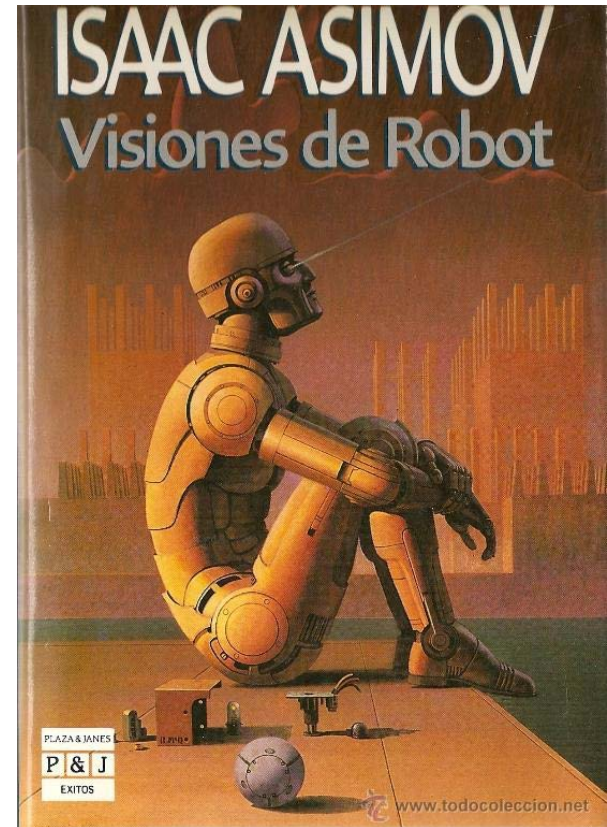

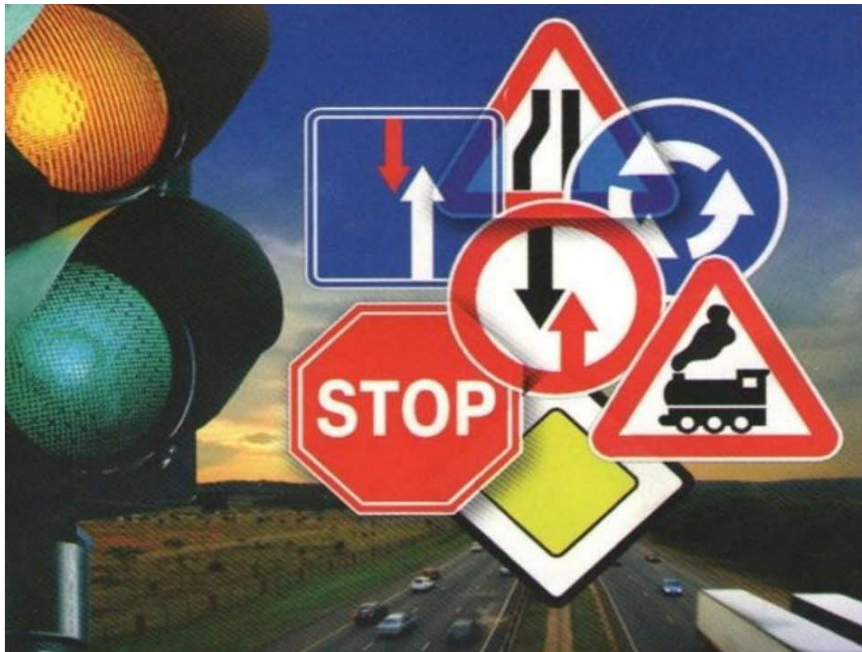

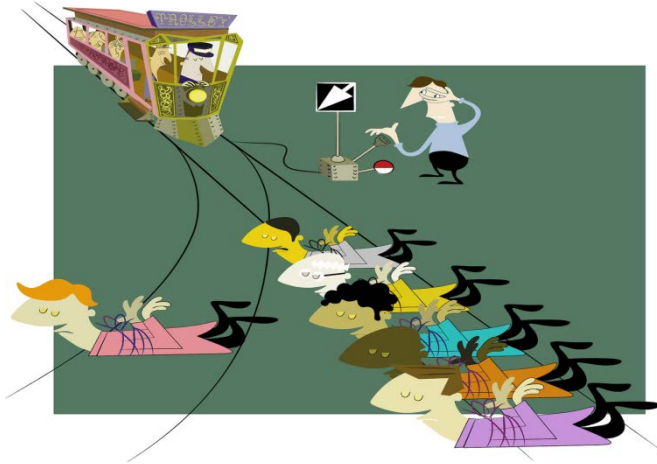

**Right for
choice**

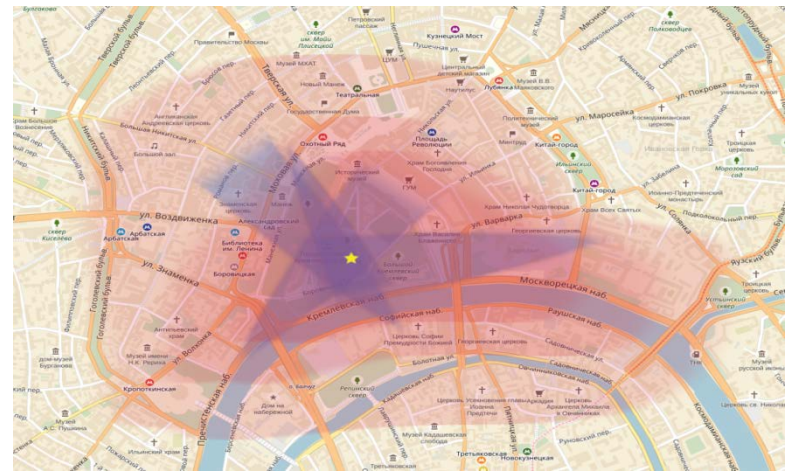

Economy. Responsibility.

Legal Aspects

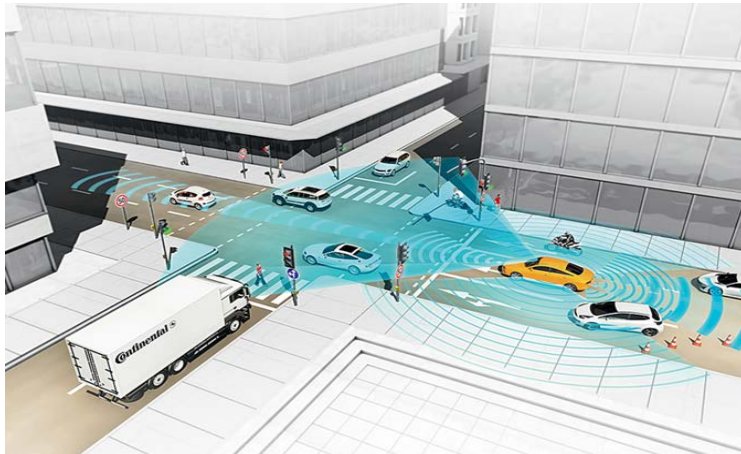

Technological Risks

Conclusions

**Limited use of
autonomous taxis**

**IT Systems for drivers
and safety of
passengers**

TAXI - VISION FOR THE FUTURE

- Integration of Information systems
- Control of financial transactions by the state
- Responsibility of drivers for passengers
- Special equipment of vehicles
- Professionalism
- Taxi as a mode of transport, not shared economy
